

Inpatient Registration Icons

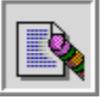

Bed Swap

Switch the bed of one patient with another

Cancel Discharge

Cancel an IP or OP discharge

Cancel Registration

Cancel an IP or OP registration

Cancel Transfer

Cancel an IP transfer

Discharge

Currently the nursing units discharge all inpatients.

Inpatient Transfer

Transfer inpatients from one bed to another

Modify Discharge

Modify the discharge disposition, discharge date/time, the patient service, attending or admitting physician

Modify Stillbirth

Modify Birth Date, Birth Time, Sex and/or location code for a stillborn

Newborn Registration

Register newborns by searching for the mother to initiate the registration

Patient Add / Modify

Modify patient information after the patient has been discharged from the hospital. Or to add a patient with minimal information

Physician Service

Change the Admitting and/or Attending Physician and/or Patient Service for a current visit

Post Downtime Registration

Quick entry to register patients after a downtime has occurred. This conversation must be used when a new PIN has been assigned during the downtime

Registration

Register IP, OP and one-day stay patients

Stillbirth Registration

Register a stillborn. Links stillborn to mother's PIN and assigns a visit number for the birth

Visit Inquiry

Review patient information by visit
